

Credit Cards Accepted

In order to process credit cards in Prosolutions you need to tell Prosolutions what types of cards you accept.

1. From the main screen of Prosolutions go to Set up, Configuration, Sales Register, Credit Cards Accepted.

2. This will take you into the section of the program where you can add the different accepted card types.

A screenshot of the 'CREDIT CARDS' dialog box in the Prosolutions software. The dialog has a blue title bar with the text 'CREDIT CARDS'. Below the title bar, there is a text input field labeled 'Card Name'. Below that is a list box containing the following card types: 'Visa', 'American Express', 'MasterCard', and 'Diners Club'. Below the list box is a checkbox labeled 'Modify Name'. At the bottom of the dialog is an 'Exit' button.

3. You need to type in each card name you will be accepting and click "enter" on your keyboard after each.

Note: Each card name must be spelled exactly as it is listed below.

CREDIT CARDS

Card Name
Discover

Visa
American Express
MasterCard
Diners Club

Modify Name

Exit

4. When you are done, click the “exit” button at the bottom of the page.
